News and Reviews

INDEX TO VOLUME 53
AUTHOR AND SUBJECT INDEX

Author

ADAMS, J.B., and C.V. WADE. Aphid behavior and host-plant preference demonstrated by electronic patterns of probing and feeding, 261-267.
AUGUSTIN, J., *see* Painter, C.G.
AUGUSTIN, J., J.M. HOGAN, R.H. TRUE, R.L. SHAW and R.B. TOMA. Nutrient composition in potatoes, 366, (Abst).
AUGUSTIN, J. and B.C. SWANSON. Changes in the vitamin content during commercial processing of potatoes, 363, (Abst).
BANVILLE, G.J. Yield losses and damage to potato plants caused by *Rhizoctonia solani* on potato tubers, 399, (Abst).
BISHOP, J. C., *see* Timm, H.
BISHOP, J.C., and H. TIMM. Influence of intermittent sprinkler irrigation upon soil temperature during potato crop establishment under high summer temperatures, 355, (Abst).
BISHOP, J.C., H. TIMM, D.W. GRIMES and J.W. PERDUE. Apparatus for measuring change in the potato soil bed profile and relationship of change to soil density and air permeability, 311-317.
BLICHARCZYK, M., *see* Callihan, R.H.
BRASEN, G., *see* CUNNINGHAM, H.H.
BROWN, C.M. and F.R. HOLBROOK. An improved electronic system for monitoring feeding of aphids, 457-462.
CALLIHAN, R.H., G.F. STALLKNECHT, R.B. DWELLE and M. BLICHARCZYK. Residues of metribuzin and its metabolites in potato tubers, 253-260.
CAMPBELL, G.S., *see* Campbell, M.D.
CAMPBELL, M.D., G.S. CAMPBELL, R. KUNKEL and R.I. PAPENDICK. A model describing soil-plant-water relations for potatoes, 431-441.
CHASE, R.W. Russet Burbank seed performance, 404, (Abst).
COCHRAN, J.F., *see* Wright, N.S.
COLE, E.F., *see* Wright, N.S.
COLLINS, W.B. Analysis of growth in Netted Gem as influenced by transplanting and by greensprouting, 363 (Abst).
CORSINI, D. and J.J. PAVEK. Standardization of potato quality testing for breeding programs, 360 (Abst).
CORSINI, D., G.F. STALLKNECHT and W.C. SPARKS. The determination of chloropropham (CIPC) levels in potato storages, 359, (Abst).
CUBILLOS, A.G. and R.L. PLAISTED. Heterosis for yield in hybrids between *S. tuberosum* spp. *tuberosum* and *S. tuberosum* spp. *andigena*, 143-150.
CUNNINGHAM, H.H., M.V. ZAEHRINGER, G. BRASEN and W.C. SPARKS. Internal quality of Russet Burbank potatoes following chilling, 177-187.
CURWEN, D. and L.A. PETERSON. The effects of rate and time of supplemental nitrogen application on yield and quality of Russet Burbank potatoes, 402, (Abst).
DALLIMORE, C.E., *see* McDole, R.E.
DAVIES, H.T. and N.C. DIXON. Evaluation of potato texture by taste and by appearance, 205-210.
DAVIS, J.R. and M.N. HOWARD. Presence of *Colletotrichum atramentarium* in Idaho and relation to Verticillium wilt, 397, (Abst).
DEJONG, H., *see* Tai, G.C.C.
DEN NIJS, T. and S.J. PELOQUIN. Polyploid evolution via 2n gametes, 370, (Abst).
DESBOROUGH, S., *see* Rickman, V.S.; also Snyder, J.
DESBOROUGH, S. and F.L. LAUER. Improvement of potato protein, 361, (Abst).
DIXON, N.C., *see* Davies, H.T.
DWELLE, R.B., *see* Callihan, R.H.
DWELLE, R.B. and G.F. STALLKNECHT. Rates of internal blackspot development in potato tubers under conditions of elevated temperatures and gas pressures, 235-245.
DWELLE, R.B. and G.F. STALLKNECHT. Respiration of *Solanum tuberosum* tubers as influenced by storage temperature, 359, (Abst).
EASTON, G.D. Late blight of potatoes under center pivot sprinkler irrigation in arid south central Washington, 400, (Abst).
EWING, E.E. Use of potato cuttings to study "tuberization stimulus" in *andigena* populations, 358 (Abst).
EZETA, F.M., *see* Thompson, N.R.

FORSLINE, P.L. and A.R. LANGILLE. The modifying effect of kinetin on *in vitro* tuberization of induced and non-induced tissues of the Katahdin potato plant, 360, (Abst).
FRANK, J. and H.J. MURPHY. The long range effect of several rotation crops with potatoes on soil-borne *Rhizoctonia*, 364, (Abst).
FRANK, J.A. and S.S. LEACH. *Rhizoctonia* damage on potatoes as influenced by alternate cropping with buckwheat, 401, (Abst).
GANDAR, P.W. and C.B. TANNER. Potato leaf and tuber potential measurements with a pressure chamber, 1-14.
GOTH, R.W., S.A. OSTAZESKI and R.E. WEBB. *Helminthosporium solani*, growth, sporulation and pathogenicity, 397, (Abst).
GRENARD, G., *see* Lam, S.L.
GRIMES, D.W., *see* Bishop, J.C.
GROSKOPP, M.D., *see* Weis, G.G.
HANNEMAN, R.E., JR., *see* Lee, H.K.
HANNEMAN, R.E., JR. and R.W. RUHDE. Ploidy level of progeny resulting from haploid extraction in *Solanum tuberosum* group *andigena*, 371, (Abst).
HARRISON, M.D. The effect of barley straw on the survival of *Verticillium albo-atrum* in naturally infested field soil, 385-394.
HARRISON, M., *see* Workman, M.; also Walker, J.G.
HAWKES, J.G., *see* Huaman, Z.; also Jackson, M.T.

Subject Index

Abstracts of papers presented at the 60th annual meeting, 355 and 395
An historical note, 382
Announcement of 60th annual meeting, 43; 61st, 477.
Apparatus
  to measure soil bed profile, 311
  circuit diagrams for monitor, 457.
  electronic monitoring equipment, 457.
  fertilizer banding machine, 337
Barley straw
  effect on *verticillium albo-atrum*, 385
Black spot, 49, 235
  rapid development of, 235
Brabender viscosity, 343
Call for nominations for honorary life membership in The PAA, 48
Call for papers for annual meeting, 107, 476

Carboxypeptidase inhibitor (CPI), 443
Certification section, winter meeting, 269
Chemicals tested:
  aldicarb, 247
  carbofuran, 247
  D-D mixture, 247
  ethoprop, 247
  fensulfothion, 247
  metribuzin, 253
  oxamyl, 247
  1, 3 dichloropropene, 247
  1, 2 dichloropropane, 247
Chromatography, 443
Consumption of fresh potatoes, 169
Day length
  affecting tuber formation, 319
    " stem height, 319
    " haulm weight, 319
    " tuber number, 319
    " tuber weight, 319
    " efficiency of tuberization, 319
Dry matter (tubers), 111, 285
Ethylene, 49
Electronic pattern of aphid feeding, 261
Financial support for seed certification, 31
Financial support for foundation seed farms, 31
Glycoalkaloid content of tubers not affected by certain chemicals, 247
Honorary life members, 1976, 305
Insects
  buckthorn aphid, 261
  Colorado potato beetle, 382
  foxglove aphid, 261
  green peach aphid, 23, 123, 261,457
  Host plant preference, 261
  Resistance to:
    Colorado potato beetle, 382
    green peach aphid, 23
    partially dominant genetically, 23
Irrigation, 69, 431
Judging mealiness, 205
Mealiness of tubers, 205, 343
Minutes of the 1976 annual meeting of The PAA, 414
Minutes of The PAA executive committee meeting, 406
Nematodes
  Trichodorus, 81
Nitrogen fertilization
  no effect on ability of barley straw to reduce Verticillium wilt, 385
Officials and agencies in charge of seed potato certification, 272

Root distribution, 69
Soil water potentials, 431
Specific gravity of tubers, 111, 285, 343
  regression formulae for, 111
Sixth triennial EARP conference, 45
Sugars in tubers
  effect of location of tubers in the hill, 15
  effect of pre-holding temperature on, 159
  effect of chilling on, 177
  fructose in, 15
  glucose in, 15
  relation of specific gravity to, 57
  size of tuber affecting, 15
  sucrose in, 15
Telone-C fumigation in relation to level of tobacco rattle virus inoculum, 81
Test plant for virus detection
  Gomphrena, 333
Tuber quality
  effect of nitrogen on, 275
  effect of soil moisture on, 275
  effect of storage temperature on, 343
Virus free seed, 99, 333
Virus testing
  chloroplast agglutination, 333
  Gomphrena, 333
  latex agglutination, 333
  precipitin, 333
  single radial diffusion, 333
Yields
  affected by soil fumigation, 81
  day length, affecting, 143
  effect of soil moisture on, 275
  effect of nitrogen on, 275
  heterosis in, by hybrids, 143
  Predictions, using regression analysis, 87
